Update details

Note: For security reasons, you'll need to call and let us know what your new mobile number is if you use it as an SMS One Time Password.

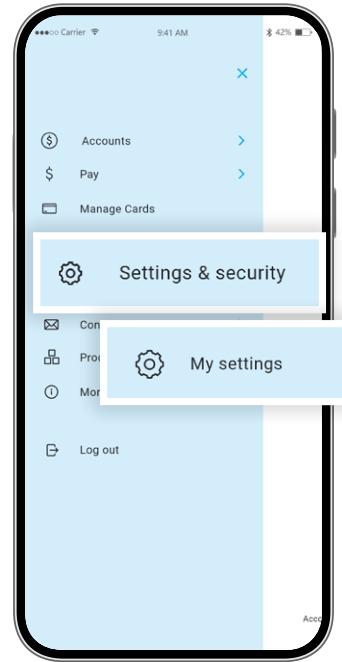

Know where your money is going

Track your spending

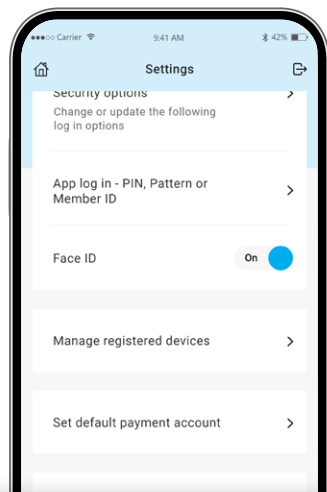

- 1** From the home screen, tap on the three horizontal lines in the top-left corner. The **main menu** will appear.

- 2** Select **Settings & security > My settings**.

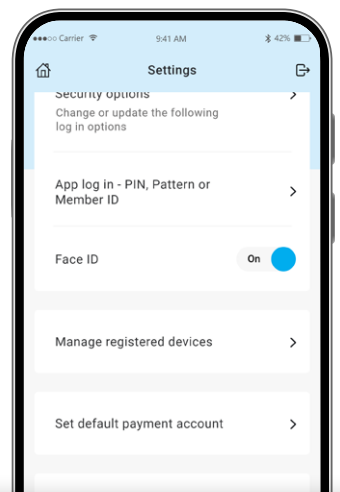

- 3** Scroll down until you see **How I spend**.

How I Spend
Turning this on will enable spend analysis on your transactions.

- 4** Switch the **How I spend** button to **On** by tapping it.

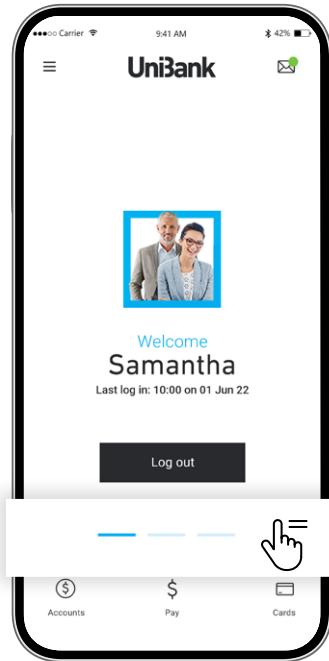

How I Spend
Turning this on will enable spend analysis on your transactions.

Know where your money is going

Track your spending – Cont'd

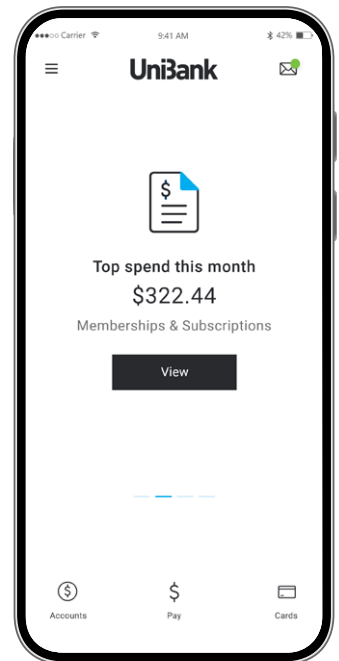

5

You can now view your **Top spend this month** by swiping your finger left on the home screen.

6

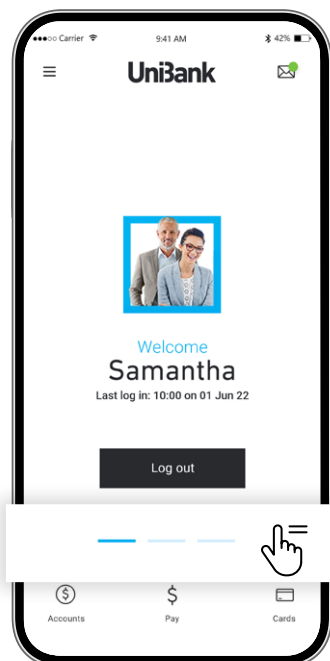

For more detailed information on your spending, Tap **View**.

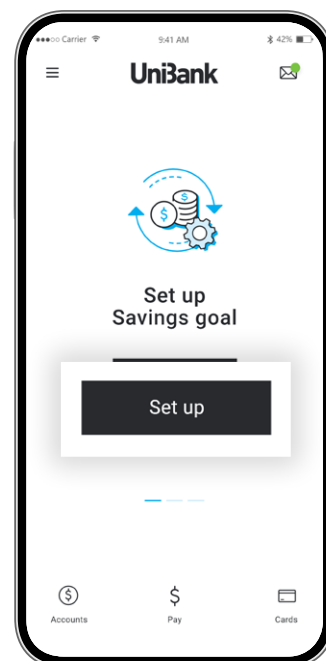

Setting goals

Set a savings goal

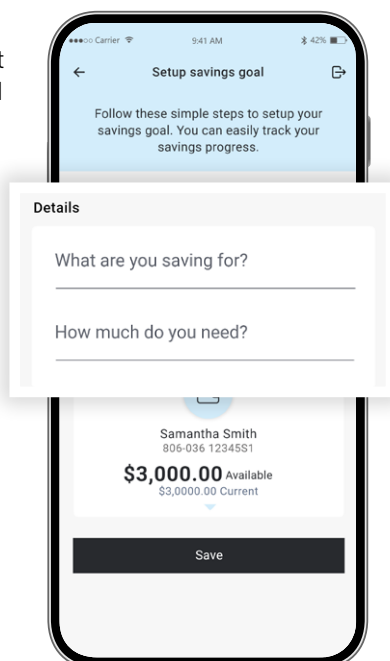

- 1** Swipe left on the home screen until you see **Set up Savings goal**.

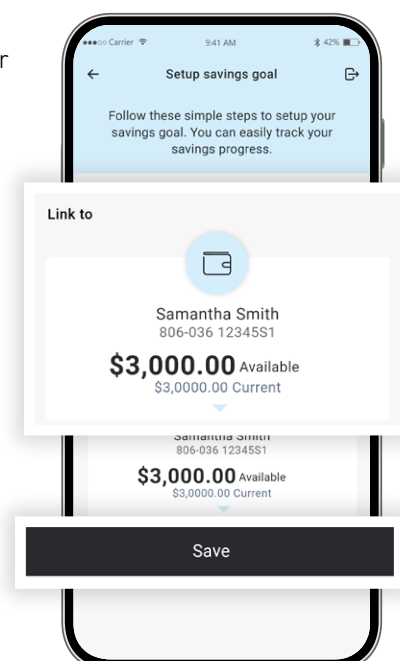

- 2** Next, tap **Set up**.

- 3** Under **Details**, enter a description of what you're saving for and the dollar amount.

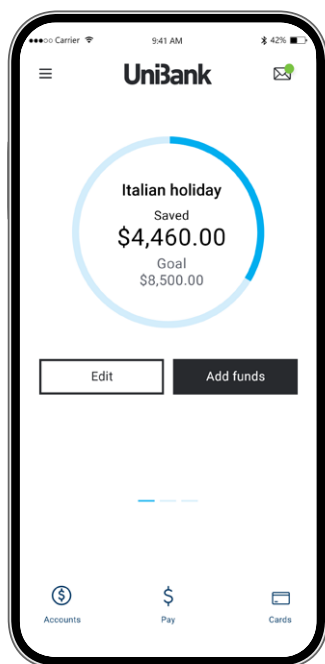

- 4** Choose a savings account to link your goal to, then tap **Save**.

Setting goals

Set a savings goal – cont'd

- 5** A graph will appear to track the progress you make towards your goal.

- 6** Your savings goal will also appear on the **Welcome screen**. You can edit it at any time and there is a quick button to add funds.

When you add funds, this is the same as transferring funds between accounts.

Note: You can only have one savings goal at a time.
